Boreland Curling Club

Club League Cup Competition

This competition was originally a straight league followed by a “final” in which the first and second rinks in the league played each other to determine the winner.

In 2004, the format of the competition was changed to help promote the experience of club members by playing in a higher position than usual, with skips playing as leads. Since that year, the Competition has undergone a variety of changes in how rinks were selected, but it has always operated on a straight league basis.
